Owned By Those We Serve

March 2019

## Deadline Approaching to Apply for a Touchstone Energy Sports Camp Scholarship

The buzzer will sound soon for local rising sixth, seventh and eighth graders to apply for an all-expenses paid basketball camp scholarship this summer.

Rutherford EMC will send one young man to the Roy Williams Carolina Basketball Camp June 22-26 at the University of North Carolina in Chapel Hill, and one young woman to the Wolfpack Women's Basketball Camp June 9-12 at N.C. State University in Raleigh. Campers will work directly with players and coaches to develop basketball skills and practice leadership and teamwork at the overnight camps.

To be eligible for a Touchstone Energy Sports Camp scholarship, students must be in sixth, seventh or eighth grade during the 2019-2020 school year. Students currently in eighth grade are not eligible for the scholarship program, per NCAA rules and regulations. Applicants must have permission from a parent or guardian to attend and must provide their own transportation to and from the camp if selected.

Applicants will be judged on academics, extracurricular activities and an essay. To access the application, visit [ncelectriccooperatives.com/sports-camps](http://ncelectriccooperatives.com/sports-camps). If you have questions or need additional information about the program you can visit our website at [remc.com](http://remc.com) or contact Jennifer Heiss at (800) 662-8835 Ext. 2239. Applications must be postmarked by March 31, with winners expected to be announced by the beginning of May. Hustle up and get those applications in by the March 31 deadline or you may find yourself sitting on the bench!

The Touchstone Energy Sports Camp Scholarships provide a one-of-a-kind educational and athletic opportunity to our states youth and reflect

electric cooperatives' core value of innovation, service and commitment to community. North Carolina's 25 local Touchstone Energy cooperatives will award more than 50 sports camp scholarships to students statewide this year.

## Know What's Below Dial 811 before you dig.

Spring is the ideal time of year to dream up and achieve your landscaping masterpiece. Perhaps you have decided to plant new shrubbery or build a new deck to enjoy those perfect spring evenings outdoors. If any of your spring time projects require digging—such as planting trees or shrubs, or setting posts—remember to dial 811 first.

Underground utilities, such as buried gas, water and electric lines, can be a shovel thrust away from turning a weekend spring project into a total disaster.

Play it safe by dialing 811 to find out where utility lines run on your property. Your call will be routed to a local "one call" center. Tell the operator where you're planning to dig and what type of work you will be doing, and affected local utilities will be notified.

In a few short days, a locator will arrive to designate the approximate location of any underground lines, pipes and cables that are in the proximity of your digging area. These areas will be marked with flags or paint so that you will know what's below. Now you are off to a good start and the digging can begin!

Although many homeowners tackling do-it-yourself digging projects are aware of "Call Before You Dig" services, the majority do not take advantage of it. A national survey showed that only 50 percent of homeowners called to have their lines marked before starting digging projects, according to the Common Ground Alliance (CGA), a federally mandated group of underground utility and damage prevention industry professionals. CGA data also shows that an underground utility line is damaged every six minutes in the U.S. because someone decided to dig without first dialing 811.

Even the simplest tasks like installing a new mailbox post can damage utility lines, which can disrupt service to an entire neighborhood, harm diggers and potentially result in hefty fines and unexpected repair costs.

Never assume the location or depth of underground utility lines. There's no need: the 811 service is absolutely free, prevents the inconvenience of having utilities interrupted and can help you avoid serious injury. For more information about local services, visit [www.call811.com](http://www.call811.com).

**Queen** or King size bedroom suit in good cond. for a reasonable price. 828-287-7813.

**COMMUNITY-FOCUSED**  
Electric cooperatives are different than other types of energy providers.

- We are led by consumer-members just like you.
- We were built by the community we serve.
- We still belong to the community.

**That's the cooperative difference!**

# Where Did These Folks Go?

## Rutherford EMC Has a Capital Credit Check for Them

In November 2015, a general retirement of capital credits was made to members who received service during 1998 and 1999. Capital credits represent revenues that are retained by your Cooperative for the financing of operations and construction to reduce borrowing and to keep rates low. These credits are returned to you as the financial condition of the Cooperative allows.

Unclaimed capital credit checks are held for four years before the money is escheated\* to the state. If you see your name listed on these pages we are holding

a check for you from 2015.

If the member is deceased, a family member or legal representative of the estate should make application for this check and the full amount of capital credited to that person's account. Last names beginning with (A – portion of L) are listed in this newsletter. The remaining names (portion of L – Z) will be printed in the April issue. All towns listed are located in North Carolina unless printed otherwise. \*The reversion of property to the state due to returned mailings with no forwarding information.
