Local People Providing Local Power

Lineworker Appreciation Day is April 10

I am sure you have noticed Rutherford EMC's crews working on power lines and other electrical equipment in your community. It's no secret that a lineworker's job is tough—but it's a job that must be done! This month, as we celebrate Lineworker Appreciation Day on April 10, I want to share some interesting facts with you about electric lineworkers.

Their work can be heavy. The specialized equipment and tools that a lineworker carries while climbing a pole can weigh up to 50 pounds. Speaking of poles, lineworkers are required to climb poles ranging anywhere from 30 to 120 feet tall. So, if you have a fear of heights, this likely isn't a career path for you.

Lineworkers must be committed to their career—because it's not just a job, it's a lifestyle. The long hours and ever-present danger can take a toll. Being a lineworker is listed in the top 10 most dangerous jobs in the U.S.

Lineworkers often work non-traditional hours outdoors and in difficult conditions. While the job does not require a college degree, it does require technical skills, years of training and hands-on learning. To become classified as a journeyman lineworker can take more than 7,000 hours of training, or about four years. That's because working with high-voltage equipment requires specialized skills, experience and an ongoing mental toughness. Shortcuts are not an option, and there is no room for error in this line of work.

Despite these challenges, Rutherford EMC's lineworkers are committed to powering our local community. During severe weather events, lineworkers are among the first to be called upon. They must leave the comfort of their home and families unexpectedly, and they don't return until the job is done, often days later. That's why the lineworker's family is also dedicated to service. They understand the importance this job plays in the community.

Rutherford EMC's lineworkers step up to the task and accept the responsibility with pride while striving to keep the power flowing 24/7, 365 days a year. In addition to the highly visible tasks lineworkers perform, their job today goes far beyond climbing poles to repair a wire. Today's lineworkers use laptops, tablets, drones and other technologies to map outages, survey damage and troubleshoot problems.

Being a lineworker may not seem like a glamorous job, but it is absolutely essential to the life of our community. Without the dedication and commitment of these hardworking men and women, we simply would not have the reliable electricity that we need for everyday life.

So, the next time you see one of Rutherford EMC's lineworkers out in the community, thank them for the work they do to keep your lights on, regardless of the time of day or weather conditions. Please join us as we recognize them on April 10, and follow "#ThankALineworker" on social media to see how others are recognizing lineworkers.

Educators, It's Bright Ideas Grant Time!

Rutherford EMC is happy to announce the kickoff of the 2023-2024 Bright Ideas Grant program! Your local electric cooperative is once again partnering with outstanding educators to bring creative learning to life! Starting April 1, teachers can apply for a Bright Ideas education grant of up to \$1,000 to fund projects that enhance student success in qualifying K-12 classrooms and would otherwise not be possible. Applications and more information about the program can be found at ncbrightideas.com.

Grants are available in all curriculum areas including art, science, history and mathematics. Over the past 29 years, Rutherford EMC has issued more than \$455,000 for 589 projects that have benefited well over 126,000 students in Burke, Caldwell, Catawba, Cleveland, Gaston, Lincoln, McDowell, Polk, and Rutherford counties.

Bright Ideas grant applications will be accepted through Sept. 15, but teachers are encouraged to apply early. Those who submit their application by the early bird deadline of Aug. 15 will be entered to win one of five \$100 Visa gift cards.

Supported by all 26 electric cooperatives in North Carolina, Bright Ideas grants have contributed \$15 million to NC classrooms, funding a total of 14,200 projects that have benefited well over 3.5 million students statewide since 1994.

Support for youth and education is part of our continued commitment to building a brighter future for the communities we serve. To learn more, visit remc.com.

SWAP SHOP

Rutherford Electric Membership Corporation provides Swap Shop ads as a free service to its members. Guidelines are as follows: Ads are published first-come, first-served. Where Did These Folks Go?

Rutherford EMC Has a Capital Credit Check for Them

In November 2019, a general retirement of capital credits was made to members who received service during 2000 and 2001. Capital credits represent revenues that are retained by your Cooperative for the financing of operations and construction to reduce borrowing and to keep rates low. These credits are returned to you as the financial condition of the Cooperative allows.

Unclaimed capital credit checks are held for four years before the money is escheated* to the state. If you see your name listed on these pages we are holding a check for you from 2019.

If the member is deceased, a family member or legal representative of the estate should make an application for this check and the full amount of capital credited to that person's account. Last names beginning with a portion of M-Z are listed in this newsletter. A list of all names is currently available on our website at remc.com. All towns listed are located in North Carolina unless printed otherwise.

*The reversion of property to the state due to returned mailings with no forwarding information.
